THE BEAUTY
OF GEORGIA

"GEORGIA: THE MIXTURE OF MODERN, HISTORICAL, ADVENTURES, AND NATURAL PLACES"

Imagine yourself in a country where you can experience the natural beauty, a place where you can play with the snow, a place where you can explore the historical structures, and a place where you can see modern urbanization.

You must be thinking, “How can I enjoy everything in a single place?”

Yes, you can enjoy everything in a single place!

Georgia is a country that is located in Western Asia. The territory of this country is 69,700 square kilometres. Tbilisi is the capital of Georgia, and it is famous for its historical foundation.

If you are planning to visit a place where you can enjoy both nature and urban then Georgia should be your first choice.

"WHY GEORGIA?"

Georgia has some of the most attractive places like:

Tbilisi: In Tbilisi, you can explore historical places like Jvari, Svetitskhoveli Cathedral, Samtavro Monastery and many more, which will give you feeling of historical cultures and traditions.

Borjomi: This town is usually famous for its natural beauty. The famous Borjomi national park has been located over there. You can enjoy big mountains, forest, and river in that region.

Bakuriani: Bakuriani is located in Borjomi district where you can do skiing and other activities in the snow. Since this place is completely covered with the snow.

There are many more existing places in Georgia that you can only experience after visiting them.
